EXPLANATORY STATEMENT.

It will be seen by the foregoing statement that the adjusted balance in the hands of the Treasurer of the United States on the 1st day of April, 1862, is.....	\$1,324,854 84
But he has received and directed the payment of sundry warrants not returned at the time of settlement, and consequently not charged in the account, the amount of which, as he has given conditional credit for them to the different depositories, lessens so much the balance, per statement B.....	881,355 79
	<u>443,499 05</u>
In addition to which the Treasurer holds in his hands various sums deposited to his credit for which warrants have not been issued, and which cannot as yet be legally charged to his account, but which are properly to be added to the above, per statement C.....	624,824 82
	<u>1,068,323 87</u>
From which deduct for partial payment of warrants for which covering warrants have been issued, but for which the Treasurer has not yet claimed credit, per statement D.....	299 61
	<u>1,068,024 26</u>
Making the sum actually at his credit in the various depositories, mints, and the several States, per statement A.....	\$32,185,127 56
From which deduct for overdrafts on several depositories, as exhibited in statement A.....	31,117,103 30
	<u>1,068,024 26</u>
This apparent overdraft is in consequence of not covering to the debit of the Treasurer the funds used in payment of certain warrants, but which will appear in the next quarterly statement.
